## EDITORIAL NOTES – Issue Number 177

Keen eyed readers will have noticed some changes at the front of this magazine. For those requiring information about the functioning of our club and/or the Victorian Club Permit Scheme (VCPS), then the club's Internet Website should be referred to. There are other changes as well that have been introduced for this issue, because there have been problems with segments of text moving or pictures dropping out when the document is forwarded to Betty for printing and mailing to our membership. For such reasons, this edition has no pictures, other than the one on the front page. This is an experiment to try and prove that the Editorial software is at fault for causing the finish-editing concerns. It has been my belief that my current Microsoft Word 2010, which I thought was quite modern, is no longer stable after a document has been saved. It takes quite an amount of time managing the photos, scans and drawn lines into position within the newsletter document. That never used to be so, it was a simple matter of hitting 'Insert', selecting the picture and 'Pasting' it in its proper location. The trouble now is, finding out just what is the latest version of Microsoft Word, or Corel's Word Perfect for that matter? The internet is not a great amount of help on that subject, even though I have been looking for the latest version to purchase. Hopefully this magazine will be with you in good time to visit the Jaguar Car Club's Display Day. Again, there is a call for ensuring plenty of time for news and event notices to be placed in coming magazines. Please ensure that your event information arrives on the editorial desk, at the very latest, two months prior to the publication month. Earlier would be greatly appreciated. Currently, for medical reasons, I am not allowed to drive for quite some time, at the earliest in late April next year or maybe, never again. Because of that we will not be able to attend as many events as normal for the duration. In addition, the editorial desk will be unattended for a while this month, while we will be exploring New Zealand. Things should be a bit more back to normal from the December issue of *Your ABCCC News* onwards – hopefully. But then, who knows what 'normal' really is these days? I have been lent some of the ABCCC's original files so that some early club activities can be included in forthcoming issues of the magazine. These articles should provide an interesting background of some of our club's activities. The first is an event brochure that appears to be a joint Victorian and Queensland brochure that announced the first running of the Great Australian Rally.

## RACV GREAT AUSTRALIAN RALLY NEWS

The response to our call for volunteers to assist with marshalling at the RACV Great Australian Rally has been extremely disappointing. Enclosed with the September and October issues of this magazine there was a form for volunteers to fill in. Please make use of the form when volunteering. We are also still looking for sponsors to help make our rally bags the best in the activity of raising very necessary funds for the organisations that our club supports. Should you have any contacts in the industry who may be interested in becoming one of our Rally Bag Sponsors, or have any suggestions as to who might be interested please contact Colin Oberin on mobile telephone number 0411 646 769 or by E-mail to: [Ancolk@gmail.com](mailto:Ancolk@gmail.com). Thank you for your support.

## A WARM WELCOME TO NEW MEMBERS

A hearty welcome to the well-oiled machine that is the All British Classics Car Club. Our club is one of the fastest growing motoring interest clubs in this country. We hope to be able to welcome you and, in actual fact, your British classic motor car, at one of our events soon. Our club aims to have two motoring events each month, so there are plenty of fabulous events for you to select from. Welcome!

## FROM THE RECORDS – A Brochure

The following text has been taken from a faxed brochure draft. It was addressed to Frank Douglas and the text was as follows:

Date: Monday January 18, 1999

Frank, Could you look at this flyer – you need to put them back to back and then fold in three.

Please advise if you have any changes. This is what we would like to send out to clubs in NSW along with a covering letter.

Any decision yet on the ordering of name badges??

I also have some editorial that John has done and will send that off to some magazines next week.

Regards, Janelle.

Note: The flyer was set up as a three columns per page, in landscape format, so that the flyers could be easily folded in three for handing out as an event brochure. The word (*Fold*) has been inserted here to provide an indication of where the folds would have been. The covering fax sheet has a red inked 'OK' indicating approval.

**AIMS & OBJECTIVES:**

The All British Classics Car Club was established for the enjoyment of owner-drivers of all British marques, with the following aims and objectives:

- To generally promote the recognised marques of the British Motor Industry and be a social venue for drivers who seek a range of organised occasions to drive their cars, in company of like-minded drivers.
- To support existing Clubs by supplementing club programs through a range of alternative day and weekend trips, etc.
- Through membership of state bodies (e.g. Queensland Combined Council of Historic Vehicles Clubs Inc.) to support moves beneficial to all car clubs.
- To affiliate and/or to liaise with other motoring organisations which share our common ideals.

(*Fold*)

**WHY ANOTHER CLUB?**

Most of our members were (and still are) members of their respective single marque car clubs, however we were looking for further opportunities to drive our fine British machines. Also this enables us to have the time and place to admire the other marques and compare notes on common problems. Being a member of another Club gives owners who have their cars on Concessional Registration more opportunity to be able to enjoy their motor cars.

Some of the different makes of cars in our Club register:

Bentley	MG	Rolls Royce	Riley
Bristol	Rover	Jaguar	Austin
Sunbeam	Triumph	Morgan	Aston Martin
Armstrong-Siddeley		Vauxhall	Standard Vanguard

Since the incorporation of the All British Classics Club in Queensland a couple of our interstate members have formed an All British Classics Car Club of Victoria at the beginning of 1993. The two Clubs are constantly updating each other on events/happenings, advertising, etc., which is beneficial to both clubs.

(*Fold*)

*The All British Classics Car Club has excellent support from owners of British cars in Queensland and Victoria with a combined membership of nearly 200, and a register in excess of 300 cars. The emphasis is on non-competitive driving events – ranging from early morning runs for the open tourers to weekend jaunts in the country. Members from the Club's two branches (Victoria & Queensland) will be attending, and organisers expect an array of British Marques to be on show. Rally Headquarters will be the Australian Army's Myambat Logistic Company Base. If any car owner is interested, please contact Queensland or Victoria branches.*

(*Fold*)

**INAUGURAL AUSTRALIAN RALLY**

The All British Classics Car Club will be holding its inaugural Australian Rally over the forthcoming Easter weekend at Denman, NSW. The Club Executives are very hopeful of establishing branches in New South Wales and the Australian Capital Territory in the near future. This inaugural Rally will be mainly a working rally with the above idea in mind; the ways it can be achieved, and planning for a truly national Rally in the Year 2000. Ample time has been allocated for organised runs, sightseeing and social events. Owners of British cars (even if not Club members) will be most welcome to drop in and say "Hello" or to participate in all or part of the weekend's activities. ## EVENTS' REPORTS

### WHAT WE HAVE BEEN DOING

#### VISIT AND TOUR OF OVERNEWTON CASTLE – Wednesday 8<sup>th</sup> October, 2014

At one point, things were looking a bit desperate as to whether we would have enough starters to make this a viable event. Lynn Higginson had put in considerable effort to ensure that we would have an interesting day out. The cause was also assisted by our Webmaster sending out a request for larger numbers of participants, thanks are due to Ed for that, because the numbers increased dramatically – to the extent that we filled the large dining room for lunch, with rather minimal elbow room. We were collected by Tony and Maxine at a reasonable hour for the drive to Keilor. The car's vocal navigation system had trouble pronouncing the word 'Lilydale' apparently, but managed to guide us to our destination. That was confirmed when we spotted Bill and Terri Allen's red Rover – from that point it was a simple case of 'Follow that car!' After parking and greeting folk, we adjourned to the dining room for morning tea with scones, jam and cream. While were emptying our cups, one of our guides told us about the history of Overnewton Castle. Once we were all assembled outside, Gordon Lindner took some group photographs to commemorate the event. *Herewith follows a brief history of Overnewton Castle which has been borrowed from the Internet. Our thanks for use of it here.* Overnewton castle was built by William Taylor in 1849. The Scotsman bought 13,000 acres (5,261 ha) of rich grazing land just west of the Keilor township. Taylor built a simple single story bluestone colonial style homestead. This consisted of six (6) rooms with large shuttered windows and wide verandas. The homestead was positioned on a gentle slope overlooking Keilor and afforded extensive views of the surrounding countryside. During the 1850's Keilor became an important and busy stopover for travellers on their way to the Victorian Goldfields. This included the building of two schools, a new bridge and a new hotel. It was not until William Taylor returned from a trip to Scotland in 1859 that the grandeur of his dreams became apparent. He set about turning the original colonial homestead into a miniature Scottish baronial castle. The stately two-story wing was added, along with the blue stone dairy and butcher's shop and the private billiard room, now used as a chapel for wedding ceremonies. Overnewton is built in the Victorian Tudor style, inspired by 16<sup>th</sup> century English and Scottish architecture. The Scottish baronial style is characterised by its rough textured masonry, steeply pitched rooves and overhanging battlement corner turrets. The candle-snuffer rooves show the influence of the French architecture. The bluestone walls were quarried on the estate and rendered with a yellow gravel and stucco finish. Above the large windows of the master bedroom is the Taylor family crest – a mailed arm and fist enclosing a dagger and the motto '*Semper Fidelis*' (Always Faithful) and, above several other windows are the carved initials of HT, T 1859 and WT. After the completion of this wing the homestead consisted of over thirty-five rooms including seven bedrooms (the master bedroom room included a small circular room and a dressing room), schoolroom, library, drawing room, two kitchens, five servants' rooms and the billiards room. There are still many original features such as tiles in the bathrooms, a claw-foot bath and the original IXL wood stove in the kitchen. Several out-buildings on the estate include a bluestone butchery and dairy, lamp-room, boot-room, coach-house, stables, woolshed, shearing sheds and a machinery shed. William Taylor passed away in 1903, aged eighty-five and, six months later, his wife Helen aged seventy-one passed away. Their eldest son William Henry continued to manage the estate, until he passed away in 1939 aged eighty-one. The estate remain in the Taylor family until 1959. The Carr family purchased Overnewton in 1959, where they raised their three children on the property using part of it as a family home. The downstairs rooms were put to use as a wedding reception centre. In 1975 Dr. LJ Norton purchased Overnewton Estate and raised his own family on the property. Since then there have been many upgrades and changes to the property including mains water in 1976. A fire in 1980, burnt the old timber stables. Dr Norton purchased back six acres of land which included a dry stone wall and some of the original outbuildings. The years have been kind to Overnewton, today it remains much the same as when it was originally built. Hidden away amongst some magnificent old trees, it has seen many changes throughout the years. Gone are the days of horses and carriages, gas lighting and servants. However, the old-world grace and charm along with the elegance, grandeur and atmosphere of a bygone era still remain. Having been restored over the years and an elegant dining room added to the estate this is definitely a hidden treasure. *(From the Overnewton Website)* A highlight of the house tour, for me, was to spot a lithograph print of IK Brunel's *SS Great Britain* pictured in mountainous seas. It is indeed comforting to know that this pioneering ship is now being restored, in Bristol, in the same dry dock that she was built in. After our tour of the house and its gardens it was time for lunch. We enjoyed a good traditional roast with roasted and steamed vegetables. On each table there were bowls of tempting salad and then we finished with desserts and coffee. After saying our thanks and goodbyes, we set off for home. On our way to the main road, we spotted birthday boy, Colin Forrest, heading from the roundabout, that we went straight ahead at, into the local school's driveway. Our collective thanks are due to Lynn for her superb organisation of the visit for our enjoyment. Special thanks are due to Tony and Maxine for driving us there and home again. It was a most interesting and enjoyable day out, our own thanks for having us along.

*Mike Allfrey.*

## **RACV GREAT AUSTRALIAN RALLY – Sunday 18<sup>th</sup> January, 2015**

**Rallying For A Cure** – The All British Classics Car Club and RACV are proud to announce that arrangements are in progress for the running of the 2015 RACV Great Australian Rally. As in the past, the beneficiary of our fund-raising will be the Peter MacCallum Cancer Foundation. This year we raised \$60,000 for our friends at Peter Mac, with the stipulation that the funds raised were to be used solely for research purposes. Start venues will be the same as in previous years:

1. At the Deaf Children Australia, at 597 St. Kilda Road, Melbourne.
2. At the Stud Park Shopping Centre, Stud Road, Rowville.
3. At the Hastings Marina Car Park, Skinner Street, Hastings.

All start venues will feature, for booked entrants, a free sausage sizzle, tea and coffee. Each entrant, on checking in with their Rally Number, will be presented with a Rally Bag. Rally entrants should collect their rally bags at their selected start venue. Flag-off will be at 9.15 am at the Melbourne start and at 9.30 am at the other start venues. The RACV Great Australian Rally finishes with an impressive public display at Mornington Racecourse, the organisers ask that entrants enter the display area via a left turn only, from Racecourse Road. There will be two open gates for rally entrants. For those who elect to pay the rally fee on the day, direction to a special area will be provided, where payments can be made. Rally marshals will direct all entrants to display parking spaces. Mornington Racecourse, for quarantine reasons, employs a 'No Dogs At Any Time' policy. In the central area there will be a significant display of World War I vehicles arranged by the Veteran Car Club, to mark the 100<sup>th</sup> anniversary year of that war's commencement. The Rally Entry Form is now available, no entries will be accepted after the official close-off date, (10/01/2015).
